matteogiampaolo26@gmail.com · [GitHub](#)

I am 16 years old, and I started coding when I was 13. I thoroughly enjoyed coding, which led me to start projects and courses on my own. I have a great passion to continue to learn and develop my skills and knowledge. English is my first language.

PROJECTS

BUG TRACKER

I developed a MERN stack app that helps you keep track of projects and tickets. Multiple people can work on a singular project. It has full CRUD functionalities, authentication, and password encryption.

[Github](#)

CALCULATOR

A calculator app made with HTML, CSS, and JavaScript. It can perform addition, subtraction, multiplication, and division. Other functions include, delete, clear, and equals.
